HARPREET KAUR

OBJECTIVE

Seeking co-op opportunity as an IT technician where I can use my strong troubleshooting abilities for the benefit of the organization's infrastructure and operations through using my knowledge in programming languages (PHP, JAVA C Sharp) and dedication towards my work.

WORK EXPERIENCE

Software Engineer
Industrial area, Phase-1, Chandigarh (Punjab), India - 2017/06-2021/07.

- As a software engineer, I gathered and defined business and functional requirements for each project.
- responsibility of designing the overall architecture of a software application including writing code comments, creating user guides and documentation, Debugging and testing, staying up to date with emerging technologies that meets all requirements of the project.
- writing and maintaining the code that powers a software application. This includes programming in languages such as Java, Python, or C++, as well as using frameworks and libraries to speed up development.
- Worked closely in teams and collaborate with other professionals, such as project managers, quality assurance testers, and designers, to ensure that software products are of high quality, reliable, and user-friendly and work on a variety of software systems, including web applications, mobile applications, desktop applications, and operating systems.

Internship – PHP
CDAC, Patiala, India – 2 months - 2016/05 – 2016/07

- Learned how to be used it mainly in web development to create dynamic websites and applications as PHP is the most widely used open source and general-purpose server-side scripting language.
- Create a website for registration in tuition institute for computer Science classes.
- Conducted throughout testing to ensure that website functions correctly and free of bugs.
- Worked in a team of 4 people to make this website easy to navigate.

Tutoring – Volunteering

- Volunteered to teach students at high school by giving free classes to them in computer center of my hometown in India related to computer Applications who were interested in learning computer Science but were struggling financially.
